

## Support Center

If you are having issues printing, saving, opening documents or opening blank documents, please perform the following four steps:

1. Launch your Adobe software.

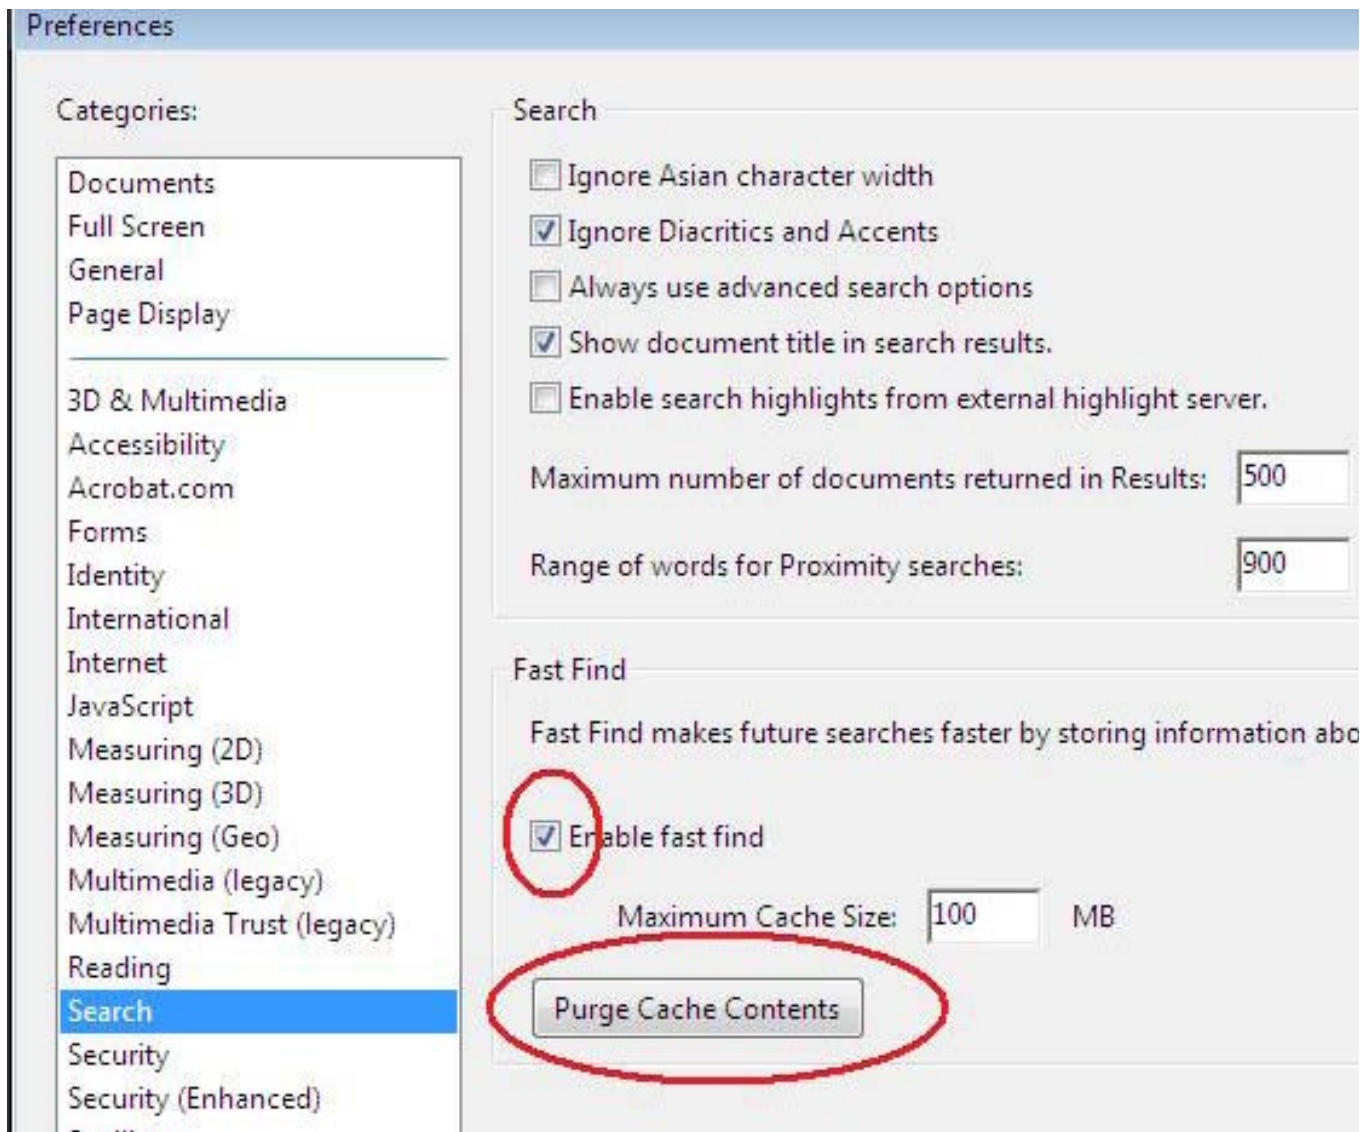

2. Go to “Edit” then select “Preferences” then select “JavaScript”. Uncheck “Enable global object security policy.”

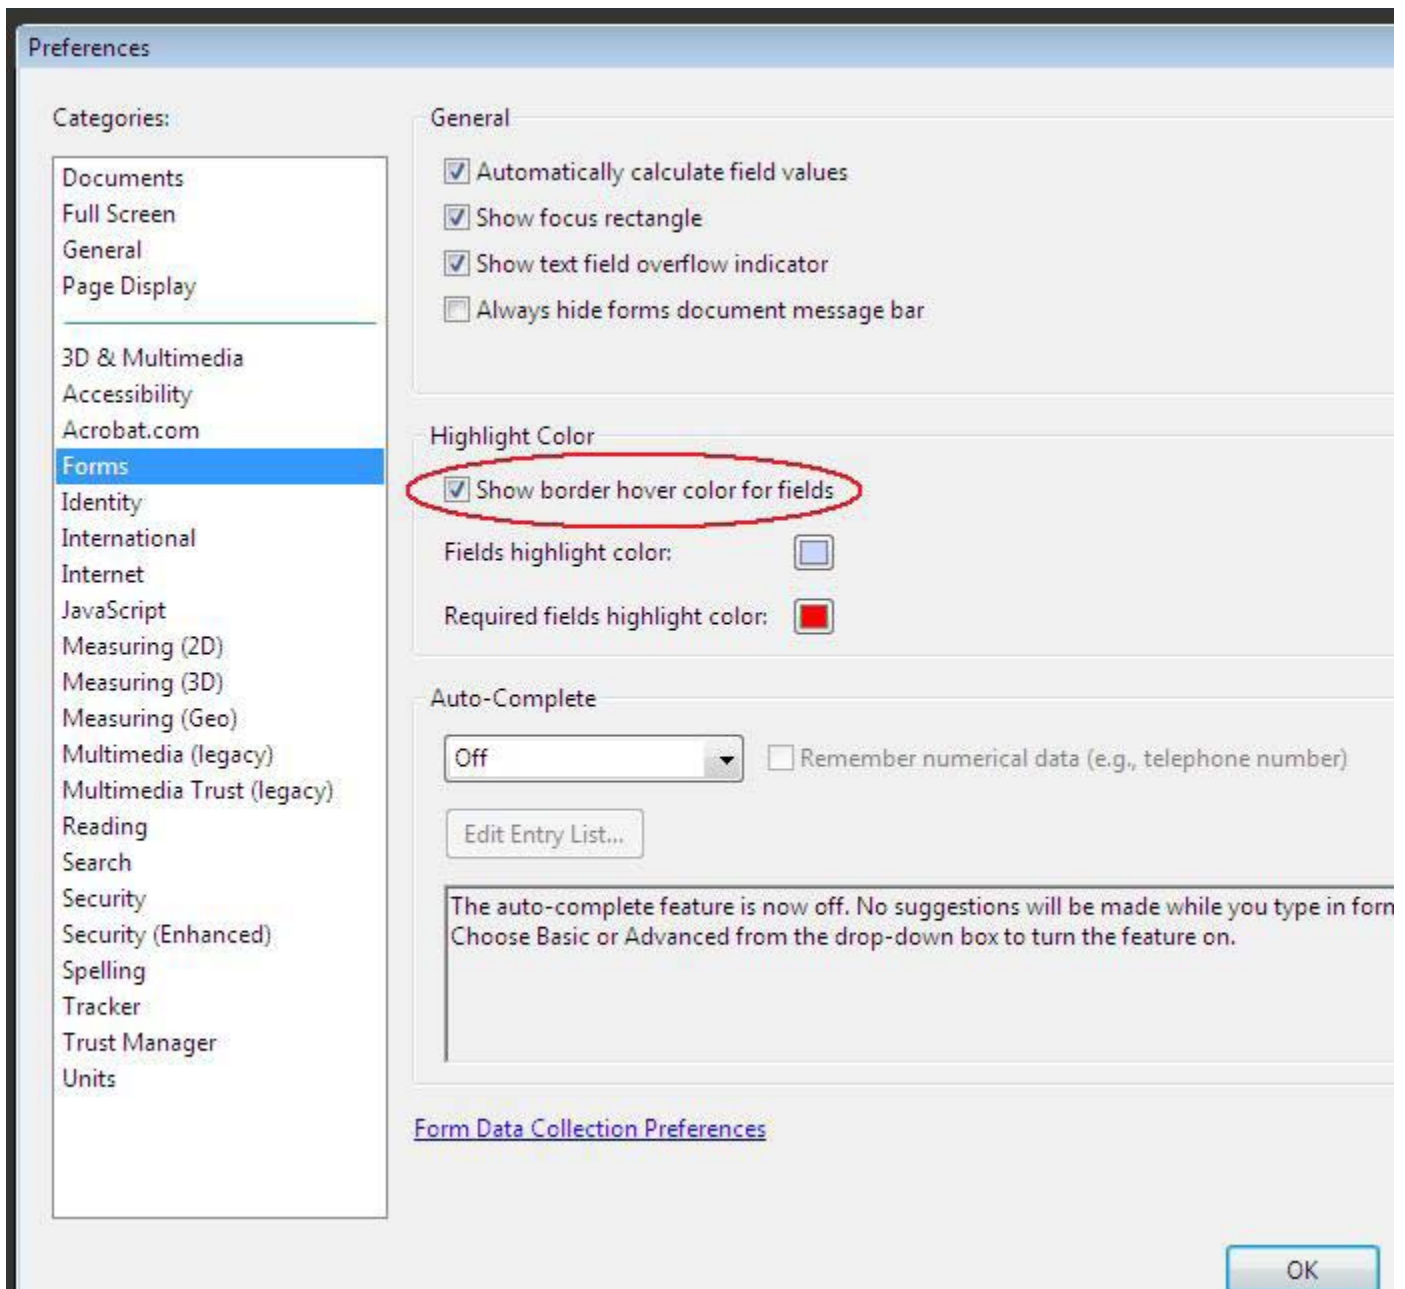

Attention: Please continue to next page.

3. Go to “Edit”, then “Preferences”, then “Search” and uncheck “Enable fast find” and click on “Purge Cache Contents.”

Attention: Please continue to next page.

4. Select “Edit”, then “Preferences”, then “Forms”, then uncheck “Show border hover color for fields.”
